### **DETAILED ACTION**

1. Claims 1-25 are pending.

#### Information Disclosure Statement

2. The Information Disclosure Statement respectfully submitted on 09 June 2004 has been considered by the Examiner.

### Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 4. Claims 1-25 are rejected under 35 U.S.C. 102(e) as being anticipated by Semper et al. (US Patent No. 6,546,001)

Referring to the rejection of claims 1,15, 16, and 24, Semper et al. discloses a method, system, and computer-readable medium of medium access control comprising:

a processor (See Column 5, lines 17-22)

a memory (See Column 5, lines 17-22)

receiving a first message including a first integer; (See Column 6, lines 38-47)

Application/Control Number: 10/804,192

Art Unit: 2137

sending a second message including a second integer, the second message sent in response to the first message; (See Column 6, lines 48-52)

receiving a third message including data and a third integer, the third integer serving to authenticate the third message, (See Column 6, lines 26-33)

and sending in response to the third message, a fourth message including a fourth integer, the fourth message serving to acknowledge receipt of the third message (See Column 8, lines 52-65)

Referring to the rejection of claims 2 and 17, Semper et al. discloses the claimed limitation wherein using as the first, second, third, and fourth integers, the same value (See Column 10, lines 6-17)

Referring to the rejection of claims 3 and 18, Semper et al. discloses the claimed limitation wherein using, as the same value, a random integer (See Column 6, lines 38-47)

Referring to the rejection of claims 4 and 19, Semper et al. discloses the claimed limitation wherein using, as the same value, a pseudorandom integer (See Column 6, lines 48-52)

Referring to the rejection of claims 5 and 20, Semper et al. discloses the claimed limitation wherein using, as the same value, a time value (See Column 6, lines 26-33)

Referring to the rejection of claims 6 and 21, Semper et al. discloses the claimed limitation wherein using, as the same value, a time value based on a Global Positioning System (GPS) (See Column 5 lines 49-55)

Application/Control Number: 10/804,192

Art Unit: 2137

Referring to the rejection of claims 7 and 22, Semper et al. discloses the claimed limitation wherein using, as the first integer, a nonce value, the nonce value being based on one or more of the following: a random integer, a pseudorandom integer, or a time value (See Column 6, lines 26-52)

Referring to the rejection of claim 8, Semper et al. discloses the claimed limitation wherein using, as the first integer, a value that is a function of a nonce value (See Column 6, lines 53-58)

Referring to the rejection of claim 9, Semper et al. discloses the claimed limitation wherein using, as the first message, a request to send message (See Column 4, lines 54-67)

Referring to the rejection of claim 10, Semper et al. discloses the claimed limitation wherein using, as the second message, a clear to send message (See Column 4, lines 54-67)

Referring to the rejection of claim 11, Semper et al. discloses the claimed limitation wherein using the first, second, third, and fourth messages as the medium access control of a wireless network (See Column 4, lines 33-41)

Referring to the rejection of claim 12, Semper et al. discloses the claimed limitation wherein using, as the first message, a request-to-send message, the request-to-send message providing media access control (See Column 6, lines 1-25)

Referring to the rejection of claims 13,14, 23, and 25, Semper et al. discloses a method, system, and computer-readable medium of medium access control in a wireless network comprising:

a processor (See Column 5, lines 17-22)

a memory (See Column 5, lines 17-22)

receiving a request to send message, the request to send message including a first integer, sending in response to the received request to send message, a clear to send message including the first integer and a second integer, receiving a data message including the second integer, the second integer serving to authenticate the data message, and sending in response to the received data message, an acknowledgement message including the first integer (See Column 6, lines 1-25)
